This information is approximate and can vary at our spot. Windsurfing at our spot is almost always possible. At certain low tides, especially in the summer, we will have to make a break for 1 hour during the lowest low tides. Kitesurfing is almost always possible. Watch out when it is getting too shallow, we don't want that you get hurt. We have been kiting and windsurfing even in the lowest low tides, but that doesn't mean that sometimes this is not going to be able for one or two.
